MEMORANDUM FOR:

FROM :

SUBJECT : Phasing out.

1. The cartographic TDY was immensely satisfying. Only one of the visits turned out to be unworthy, which is a good batting average. I have written a tour report but have not had it typed. Several things I observed warrant some thought from all of us, I think.

25X1A9a

2. The [redacted] arrived without incident. They are now going through the measles one at a time, unfortunately. The long overlap is justified more than headquarters appreciates. For example, Dick has spent most of every day in home-hunting, financial accounting, being introduced, etc., all vital necessities to becoming effective in his job. The end is not in sight, so we will be lucky to have even two weeks of really working together.

3. Under present plans, I intend to sail on August 2 on the America, and arrive in New York on August 9. I will report in to headquarters on August 11 and spend two days in 'll' and 'M' divesting myself of whatever needs divesting. We will then take off for the glorious southland for three weeks of acclimatization, barbeques and fish-fries, and report back to Washington on September 6, or thereabouts, if satisfactory to you.

4. It will be good to be back.
